Radiology Technology Program

Application Process

This process is explained via the enrollment support specialists, program support specialist, and health imaging information sessions throughout the year.

1. Apply to Gwinnett Tech

   Transcripts evaluated, pre-requisite requirements determined as listed for RADT curriculum.

2. Complete Pre-requisite courses if not already completed and other additional required courses as desired

3. June 8th is the deadline every year for Health Imaging Programs

   A. Complete program application packet found online at gwinnetttech.edu. The following should be included with the application as stated on the form:

   1) Transcripts printed from Banner

   2) TEAS scores- student selects which score to submit if taken more than once.

4. Packets are electronically turned into the admissions office, specifically to the Health Enrollment Team at the email provided on program application.

5. Once all application packets are received, GPA is confirmed by Admissions office.

6. Packets are reviewed by RADT Program Director who determines rank by assessing the GPA and TEAS scores included in each individual applicant's packet.

7. Scoring is placed on spreadsheet:

   A. GPA- points awarded via scale.

   B. TEAS score- points given according scale.

8. Applicant spreadsheet is assessed and sorted via Excel. Rank is displayed largest total score to the smallest.

9. Program Support Specialist notifies the top-ranking applicants via Gwinnett Technical College student email that they have made the first round of applicants to the RADT program. There will be more applicants than slots notified because some students have applied to more than one program. Number of accepted applicants can vary yearly but ranges from 22-25. Twenty-five students per cohort is the maximum.

10. Accepted applicants MUST attend mandatory RADT program information meeting in person on the Lawrenceville campus during the 3rd week of June as announced in the email. If this meeting is not attended, the applicant's name is removed from the list.

11. Students will be informed of their ranking so they may decide on which program they wish to enter. Alternates will be informed of their status. Emails are sent that Friday of the 3rd week of June each year.

11. Monday the 4th week of June is the deadline for applicants to inform RADT Program Support Specialist via email if they accept their invitation into the RADT program. (This is the deadline for all Health Imaging Programs.)
