A unit of the Technical College System of Georgia.

TECHNICAL EDUCATION GUARANTEE

The Technical College System of Georgia has developed curriculum standards with the direct involvement of business and industry. These standards serve as the industry-validated specifications for each occupational program. These standards allow Georgia's system of technical colleges, of which Gwinnett Technical College is one, to offer their business partners the following guarantee.

“If one of our graduates, who was educated under a standard program, and his/her employer agree that the employee is deficient in one or more competencies as defined in the standards, the technical college will retrain that employee at no instructional cost to employee or employer.”

This guarantee applies to any graduate of our technical college who is employed in the field of his/her training. It is in effect for a period of two years after graduation.

For questions involving the guarantee, please contact the Academic Affairs Office at 770-962-7580, ext. 6299.
