June is National Safety Month

National Safety Month focuses on reducing leading causes of injury at work, on the road and in our homes and communities. This is a great opportunity to raise awareness on important safety issues like medication safety, driving and working safely, first aid and emergency preparedness, and preventing slips, trips, and falls. Everyone can get involved in reducing the risk of injuries. *Healthfinder.gov* provides steps people can take to protect themselves and others:

1. Check the expiration date on your medicine
2. Prevent distracted driving by not texting and driving
3. Take a First Aid class
4. Have an emergency preparedness plan
