Gwinnett Technical College EMS Professions Diploma Competitive Selection Application

The EMS Professions Diploma program requires the following courses to be completed or “in-progress” by the Semester Priority prerequisite deadline. Each course must be completed with a minimum grade of “C”. Applicants completing all required prerequisites by the Application deadline will be given priority in the selection process. A student may retake a course, however only the most recent attempt will be considered for the prerequisite GPA calculation used in the initial screening process.

Please identify where and when each course was completed, and the letter grade attained. If you repeated a required course, please list information related to the **most recent attempt only**. GTC must have an official transcript on file for each college previously attended. Please view your GTC academic transcript through Self-Service BANNER Web to find the Semester and grades for specific courses completed with GTC.

***Remember to list all prerequisite courses completed. Mark as “in progress” the prerequisite courses you are currently enrolled in for Semester.** Complete the GPA calculation portion of the chart for completed courses only.

- I understand this application, along with all course information and supporting documents must be received by the Enrollment Support Center in Building 100 by the Semester Application deadline.
- I have attached an unofficial copy of my Gwinnett Technical College transcript which I have printed from www.gtc-web.org and I have confirmed all courses and grades listed above are accurately reflected therein.
- I understand FYES 1000 (unless exempt) must be completed before beginning the program.
- I understand completion of prerequisite courses and meeting other minimum requirements does not guarantee selection to the EMS Professions Diploma program, as there are a limited number of seats available in the occupational and clinical courses. I understand candidate selection is based on a competitive selection process.
