Next Generation Accuplacer Testing

NEXT GENERATION ACCUPLACER is a placement test offered by the College Board to help measure a student's skills in reading, writing and math. The tests are:

- **Reading** – 20 multiple-choice questions
The test measures your ability to derive meaning from a range of texts and to determine the meaning of words and phrases in short and extended contexts. Categories include Information & Ideas, Rhetoric, Synthesis and Vocabulary.
- **Writing** – 25 multiple-choice questions
The test measures your ability to revise and edit multi-paragraph text for effective expression of ideas and Standard English conventions such as punctuation
- **Arithmetic** – 20 multiple-choice questions
The test focuses on computation, order of operations, estimation, comparing values in different formats and recognizing equivalent values. 4-function calculator available for some questions.
- **Quantitative Reasoning, Algebra, and Statistics (QAS)** – 20 multiple-choice questions
The test measures your ability to perform selected mathematical concepts focusing on computational fluency, applications and conceptual understanding. This includes Linear Applications & Graphs, Factoring, Functions, Polynomial Equations, Exponential & Logarithmic Equations and Trigonometry. 4-function and square root calculator available for some questions

Questions are computer-adaptive (a student's response to each question drives the difficulty level of the next question). The score range is 200 – 300. Final scores are based on the number of questions answered correctly and the difficulty level of the questions answered correctly.

Summary:

- Next Generation Accuplacer tests are all multiple-choice
- There is no time limit on the tests
- It can be taken all at once or in parts
- An on-screen calculator is available for selected questions
- A student is allowed one retest per section and must wait 14 days from the original test date. The retest fee is \$25 per section.
